

Activity 2 – Life cycle of reused items (Video 1)

Using the template fill in the gaps on the life cycle chart to show the life cycle of an item of furniture as you saw in the video

Life Cycle of a Sofa

The sofa finds a happy new home to be used in

The sofa is taken to a shop where your family buys it and takes it home

What would happen to the sofa then?

When you no longer need your sofa where would you take it?

Clue: Who would use your sofa once it is at home?
